

MOUNTING

Mounting Plates & Locking Covers

The A/MOUNTING PLATE may be used to mount devices over a larger electrical enclosure or hole in the wall. It is made of a plastic material and contains numerous mounting holes to match most standard electrical boxes used in the industry today. It may be mounted vertically or horizontally. The MOUNTING PLATE-10 is slightly larger than the standard A/MOUNTING PLATE and is made from 20 Gauge Commercial Steel.

The LOCKING COVER can be used to protect a room mounted enclosure from physical damage or tampering. It includes a clear vented cover and two keys.

The ACI MOUNTING PLATE and LOCKING COVER are covered by ACI's Five (5) Year Limited Warranty. The warranty can be found in the front of ACI's Sensors & Transmitters catalog, as well as on ACI's web site, www.workaci.com.
